Testimonials

Amy and the Wild Flowers Company were absolutely amazing from the moment we decided to go with them to the day itself. Amy listened to my vision for our big day and also gave support and ideas. She was professional and organised yet also caring and it felt like it was meant to be! The flowers were sensational and everyone at the wedding (and afterwards) commented how stunning and unique they were. I could not have asked for a better florist and could not recommend her enough! She is amazing ❤️

Alex

Amy was incredible from the first contact and communication throughout - it was like talking to a friend rather than a supplier! I had an idea of what I wanted and my only request was - lilac hues, lots of greenery and Wisteria! I wanted to let Amy and her mum 'do their thing' and they delivered everything I could've imagined and more! Their attention to detail and artistic flare is something to wholeheartedly trust, and I honestly cannot praise or recommend this small but mighty company enough!

Alannah

Amy was easy to work with from start to finish, always responsive and helpful. We sent a few pictures of what we liked and she knew exactly what we wanted and created this. The flowers on the day were absolutely stunning, from the flower bombs to aisle and cake flowers and the bouquets. The photos are beautiful. We were so pleased with them and would recommend this company to anyone for wedding flowers!
